" Together We Make The Difference "

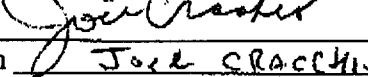

All services are provided under the SBC corporate umbrella. Our local sales/service representatives indicated on our contract that DataComm would be supplying the onsite priority 1 lease portion of the contract. Following the actual installation, billing came from ASI for the lease portion of the contract; SBC made this service substitution from within. As the customer, we have had no contact with DataComm and hence have no additional contact information to supply here. \* The original service provider supplied NO services under this funding year request.
